AGENDA:

- Status
- This was a quick status meeting to see we are on track

MEETING

STATUS

- Main goal is to complete CHAT functionality.
- Nice to have is the billing
- Expect to have a live demo of the chat function at the presentation.
-
- Completed Registration, Login and booking for both Doctor and Patient
- Start Chat Twilio integration - Patient view & Doctor view- @Ikhawaja and @Soma Please start conversation with @WEI TAO very early to understand what is required
- create billing Patient/Doctor- next week (week 10)
We have 2 weeks to get everything complete and one week to polish product.
- week 11 we need a polished prototype to demo as part of presentation.
- we can't let any deadlines slide as we are now losing that flexibility
- Keep the login basic
- Ability to add prescriptions (?)
- Generic enough to be used for all types of similar services
